NURTURING TALENTS. BUILDING CONFIDENCE. CREATING POSITIVE CHANGE FOR STUDENTS.

At The Center School, the lives of our students are changed for the better every single day. If you were to walk the halls of The Center School on any given school day, you would see students, teachers, and professionals engaged in learning and teaching. A hand raised. A friendship formed. New confidence gained. It might be easy to take this day to day for granted.

Our families, students, and teachers know better than that. Many times their time at The Center School is the first which a student with disabilities has felt academic success. Our students come to us because they have not been successful in other placements, or because they have not yet been given the tools and support they need to thrive. Once they get here, our highly trained staff begins to form the relationships that are at the foundation of all we do. Specialized teaching and individualized support services are delivered seamlessly throughout the day pushing students to meet their potential. Students quickly learn that they are valued and that our school is a place they can learn and succeed.

With your support, we can continue to make a life changing impact on the students we serve.
